

Relay and Ditat's Interactive Fuel Integration

With the interactive fuel integration, you'll be able to:

- Automatically receive a daily import of your Relay fuel transactions into Ditat for settlements, reporting, and IFTA
- Manage driver fuel policies in Ditat. Automating the enablement/disablement of their policy based on the drivers dispatch status in Ditat.
- Issue one-time fuel or cash codes directly from Ditat. RelayCodes are instantly available in the Ditat Mobile App.

When you Fuel with Relay you can:

- Reduce fraud with strict controls, monitoring, and innovative geofencing technology
- Take advantage of Relay's Clutch Program for discounted fuel, and use any existing discounts you directly negotiated with merchants
- Allow drivers to conveniently locate on-route truck stops and discounts from Relay's app
- Instantly enable digital payments across your fleet without lengthy activations
