

Streamline payments for fleets and brokers

Relay's integration allows fleets and brokers to completely automate their lumpers payments in Ditat, resulting in a quicker and more effective process.

Benefits of the Relay & Ditat TMS Lumper Integration:

Automatically generate RelayCodes for lumper payments directly inside Ditat, tied to trip and stop details

Improve the driver experience with RelayCodes sent instantly to the Ditat Mobile App for faster, easier dock payments

Mitigate the risk of fraud by using secure digital payments

Streamline back-office operations as lumper charges and receipts post automatically into Ditat and link to the correct trip

RELAY BENEFITS

- ✓ Relay analyzed more than 500K transactions to determine that the average lumper fee is \$175
- ✓ An average of 10% of all lumper fees are not reimbursed due to lost receipts
- ✓ With Relay, users get off the dock at least 20 minutes faster
- ✓ If your company makes 1,000 lumper payments a year, that's a savings of \$17,500 annually
- ✓ Added time savings: drivers spend 45+ minutes on dock when paying with cash and checks
- ✓ With Relay, users get reimbursed 100%
